

A Message from our Green Team

Dear Parents,

It's cold and it's incredibly tempting to keep your motor idling to stay warmer while you are stopped. But did you know idling is a serious problem?

Here is why we kindly ask that you stop idling, especially in front of a school:

- It will reduce children's risk of developing health problems (asthma, allergies, etc.)
- Idling damages your vehicle and contributes to climate change
- Idling is illegal in many municipalities, including Westmount!
- It will save you money!

For these reasons we hope you will make the right choice and #turnitoff.

For more information please watch this video:
Please Stop Idling at School

Thank you!

Respectfully yours,
The Green Team
